

Explora Guide To Educational Programs

Thank you for considering Explora!

Our innovative learning experiences support your educational objectives. Our on-site and outreach programs immerse students in thought-provoking, phenomenon-based science, technology, engineering, math (STEM), and art experiences. In each program, there is the opportunity to apply science and engineering practices and make practical connections to crosscutting concepts. We are committed to supporting education throughout New Mexico, and we hope you will include Explora as part of your educational program this year.

Programas en español: Explora puede proveer sus exploraciones de exhibiciones, sus exploraciones de aula, y sus programas de extensión en español. Llama al 505-600-6072, de lunes a viernes, 9am–5pm.

Field Trips

Description

Bring your students on a field trip to Explora to engage with museum exhibits or experience a hands-on lesson or exploration in one of our classrooms or labs! Explorations involve each student in materials-rich discovery on a specific topic and are aligned to Common Core State Standards and New Mexico STEM Ready! Standards.

- Exhibit Exploration - 1 or 2 hours self guided
- Classroom Exploration - 1 hour, up to 30 students per classroom
- Makerspace Exploration - 1 hour, up to 30 students per classroom
- XStudio Classroom Exploration - 1 hour, up to 30 students per classroom
- Exhibit Exploration and Classroom/Makerspace/XStudio Exploration Package

Classroom, Makerspace, & XStudio Exploration Topics - [Click here](#)

Outreach from Explora

Description

Explora can come to your site, in-person or virtually! Programs are aligned to Common Core State Standards and New Mexico STEM Ready! Standards.

- Classroom Exploration program - 1 hour per.
An educator leads a class on a specific topic for a single class of students (up to 30 students). Topic options below.
- “Mini-Explora” Program to You! - up to 6 hours.
During the school day, educators bring a variety of tabletop activities. Up to three classes at a time participate and students rotate at their own pace through the different activities.
- Community & Family Science Program - 2-3 hours.
In the evening or on a weekend, educators bring a variety of tabletop activities for families and students.
- Math Night - 2-3 hours.
In the evening or afterschool, educators bring a variety of tabletop math activities for families and students.

Professional Development Workshops

Explora offers professional development workshops focusing on foundational practices, makerspaces and technology, and early childhood to middle school content. These workshops provide teachers with the tools to implement effective, engaging instruction in line with the Common Core Standards, New Mexico STEM Ready! Science Standards, and New Mexico Early Learning Guidelines.

Highlighted Workshop Topics:

- **Growth Mindset in Mathematics**
- **All for STEAM! Strategies and Activities for Neurodiversity**
- **STEM in Literacy: Integrating Reading Strategies with STEAM Activities**
- **Ways of Knowing: Place-Based STEAM**

For the full list, [click here](#)

Fee Schedule

- **In-Person**
Up to 2 hours \$500
3-5 hours \$1000
Custom topic, up to 2 hours \$1000+
- **Virtual**
Up to 2 hours \$500
Up to 2 hours with 30 individual kits \$1000

Fees set for 30 participants; contact us for larger groups.

Contact education@explora.us for more information!

STEAM Kits

Description

These STEAM kits come with all the necessary materials and an easy-to-follow activity card. Activities range from bubbles to bridges! Kits can be picked up curbside at Explora or shipped for an additional fee.

Contact us at education@explora.us for custom science kits and curricula!

STEAM Kit Topics - [Click here](#)

Fee Schedule

- **STEAM Kit**
25 kits \$200
\$7 for each additional kit

Email reservations@explora.us or call (505) 600-6734 to purchase kits.
